

RESULTS

Vanguard Medical Group Reduced Leakage 75% & Unnecessary Costs 10%

"What I like most about ReferralPoint is getting 100% more control over our referrals. Before, we didn't know our out of network % but now that we can control and track it, we've seen it drop from 33% down to 5.5%."

ReferralPoint has helped us market to our patients so they know not to do a Google search to see a specialist. Rather, to contact us so we can connect them with the right high-quality specialist."

Tom McCarrick, MD
Chief Medical Officer
