Artisight Makes Higher Retention Possible

Reduce friction by helping clinicians do more with less.

Get access to a full suite of features
that free clinicians to do their jobs
much more efficiently.

All you need to get started is a
camera, a speaker, and a two-way
video in each patient room.

- ◆ Remote Nursing
- ◆ Remote Sitter
- ◆ TeleConsult
- ◆ Fall Prevention
- ◆ Staff Duress
- ◆ Pressure Ulcer Prevention
- ◆ Bed Management
- ◆ Translation Services
- ◆ Automated EHR Documentation

Remote Nursing

Free bedside nurses to focus on patients by tapping into a new dimension of flexible teamwork.

Offload time-consuming tasks from bedside nurses while allowing your clinical team to work off-site during select shifts, supporting your bedside team and patients via live feed video.

- ◆ Patient Monitoring
- ◆ Workflow Automation
- ◆ AI Services

Remote Sitter

Optimize staff with tools that let one sitter monitor multiple patients simultaneously via one screen.

Using a localized AI algorithm to monitor fall risk, Remote Sitter delivers automated alerts when movement is detected and allows sitters to respond to patient needs via two-way video/audio.

- ◆ Multiple Patient Monitoring
- ◆ Mobile & Stationary Solutions
- ◆ AI-Detected Movement
- ◆ Automated Alarms & Patient Alerts
- ◆ Intuitive Onscreen Controls
- ◆ Privacy Screen

TeleConsult

Round on any patient in your hospital system for any type of televisit — telehealth, eICU, telestroke, etc.

This intuitive and remote application uses your existing hardware and lets your team find patients by name, MRN, or location. Invite other providers, family members, and interpreters.

- ◆ Screen Sharing
- ◆ Background Blur
- ◆ Observer Mode
- ◆ Intuitive Search & Filter Function

Hospital Viewer

Track real-time critical administrative data, and more.

Keep tabs on essential data across your facility, plus get a consistent pulse on your organization's adherence to discharge standards and protocols.

- ◆ Inpatient Capacity Management
- ◆ Discharge Facilitation
- ◆ Supply Closet Inventory Management
- ◆ Loading Dock Receipt Management
