

Adapts to every provider, adopted by every department

When AI works how providers think, transformation just happens.

Trusted in 2 million patient visits each week

"I'm an EM physician, and using Heidi for the last three weeks has been game changing for my workflow. It's cut down on 90% of my documentation time."

Emergency Physician

Turn admin time into patient time

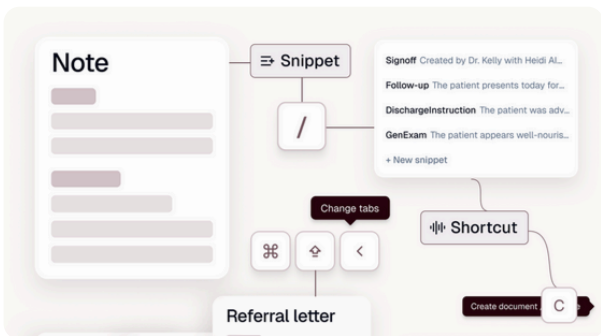

Every minute spent on notes is a minute not spent with patients. Heidi handles real-time transcription, documentation, coding, and follow-up tasks while providers stay fully present during encounters.

6 minutes, saved per encounter

One platform, every department

From emergency to psychiatry, paediatrics to oncology—Heidi understands clinical language across specialties. Your providers move seamlessly between departments without learning new systems or losing momentum.

200+ specialties

Stop losing providers to burnout

Heidi adapts to how providers work—they speak naturally during care, get structured clinical notes instantly, with zero cleanup after. When tools help instead of adding steps, providers stay focused on patients, not admin.

65%+ adoption in the first month

How Heidi Works

When AI works how providers think, transformation just happens.

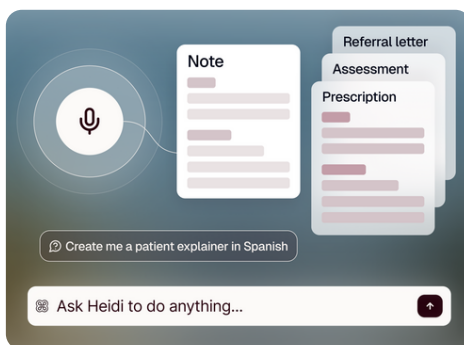

Before encounter

During consultation

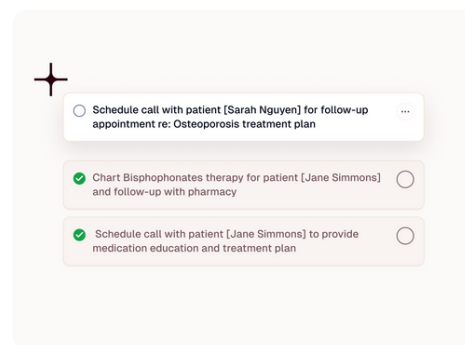

After consultation

Pull patient history, review past sessions, sync schedules. Upload reports so Heidi has complete context.

Hit record and focus on your patient. Heidi captures in 110+ languages, creating SOAP, H&P, or custom notes.

Push documentation to EHR. Auto-apply ICD-10 codes and generate referrals, discharge summaries, and more.

Works how providers do

- Adapts to each provider's style with tailored templates and terminology
- Integrates with EHR systems including Epic, Cerner, and Veradigm
- Works across diverse patient populations with 110+ languages
- Flexible across every setting with desktop and mobile

Why healthcare leaders choose Heidi

Healthcare organizations using Heidi get back on average 10 hours per provider each week.

Scan to find out how much you could save.
