

# Wraparound Maternity Care for Hospitals & Health Systems

Mahmee offers outcomes-based prenatal and postpartum care programs for hospitals and health systems. In less than 90 days, launch an all-inclusive care program with in-person and virtual services, featuring:

## Registered Nurses

Clinical guidance and remote patient monitoring

## Infant Feeding

Breast, bottle and pump education and consults

## Doula Care

Childbirth preparation and psychosocial support

## Mental Health

Coaching to improve sleep, stress and communication

## Nutrition

Best practices on healthy eating for mom and baby

## Care Coordination

Direct help to book care and address social needs

# Save \$1.4mm-2.4mm per hospital on avoidable costs

Reduce postpartum complications using wraparound maternity services.

Hospitals can easily offer cost-effective nurse-led remote monitoring, doula care, lactation support, mental health coaching, nutrition guidance, childbirth education, and care coordination, all-in-one. Services can be deployed virtually or in co-branded Mahmee clinics located near or inside the hospital.

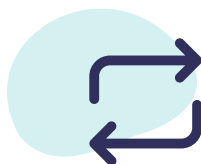

Reductions in:

Emergency Department Visits

Perinatal Mood and Anxiety Disorders

Hospital Readmissions for Mom or Baby
