

The digital home for teen health

An all digital clinic providing text and video consultations with doctors trained in adolescent health for teens and families.

TEEN POPULATION

There are 70M teens, representing \$200B in annual costs:

- 20% of population
- 25% chronic illness
- 22% commercial plans
- 1/3 medicaid membership

OPPORTUNITY

Teen Health Change is Needed:

- **Underserved:** A life stage gap, ages 10-25, in healthcare with no solutions for telehealth
- **Differentiated Needs:** Health milestones, physical needs, formative healthcare, & mental health needs
- **Poor Outcomes:** Growing chronic illness over 25% & missed payer performance standards.
- **Underserved:** \$200 billion in annual premiums with high digit YoY growth.

HOW IT WORKS

- **24/7** access to doctors for teens and their parents via text or video.
- **Specialized Team** of doctors available for consults, prescriptions, education, and care navigation
- **Urgent Care, Primary Care, & Well Care**

OUR IMPACT

15%

Cost Reduction & Outcome Improvements

QUICK FACTS
