## Helping kids be resilient in our modern world

*Gheorg is a high performance mental health and wellness machine learning app for youths between 7-12.*

- ✓ Empowers kids with emotional understanding, perspective, self-calming, and mental wellbeing.
- ✓ Provides a user friendly app and lovable characters that guide kids through exercises to improve resilience and emotional intelligence.
- ✓ Offers a safe, private space 24/7/365, a parent portal, and, if all agree, a dashboard for caregiver, educator, guardian, or other appropriate party.

### Included:

1. one subscription for the whole family, wherever and whenever they need it.
2. daily check-ins
3. games, storytelling, meditation, & exercises
4. neuro-shaping balanced thinking, cognitive behavior therapy, and acceptance commitment therapy
