How it works for patients?

Meet Your Team

You'll be paired with both a medical provider and a registered dietitian. Each will review your history, give you a detailed evaluation over video call, and order blood tests, and diagnostics as needed.

Get A Personalized Care Plan

Together, your care team will create a holistic care plan to tackle your symptoms—which may include dietary and lifestyle changes, nutrition counseling, and medication.

Ongoing Support And Progress

Change is hard, but with Paloma, you're never alone. We're the supportive and caring team to help you manage your symptoms and stay on-track with your health goals, providing ongoing support and adjusting your care plan and medication as needed.
