

Pylo clinically validated remote patient monitoring devices meet the latest industry standards of accuracy and security, are easy to use, and connect to multiple cellular networks to better ensure reliable data transmission from throughout the US.

Pylo 200-LTE Weight Scale

A dependable device for weight programs of all sizes and specialties.

- 440-pound capacity with accuracy to 0.1 lbs
- Low-profile design that allows for lower shipping costs
- Custom design and white labeling options
- FDA cleared and FCC certified
- Roaming 4G/5G cellular connectivity with 2G fallback

Pylo 300-LTE Weight Scale Plus

An easy-to-use device for bariatric programs and patients with elevated fall risk factors.

- 550-pound capacity with accuracy to 0.1 lbs
- ISO validated, textured surface to minimize slip and fall risk
- Antimicrobial and contact allergy tested
- FDA cleared and FCC certified
- Roaming 4G/5G cellular connectivity with 2G fallback

Pylo GL1-LTE Blood Glucose Meter

An intuitive glucose meter that enables seamless remote blood glucose monitoring that works for both patients and clinicians.

- Highly accurate plasma glucose readings
- Built-in test strip ejector
- Delivers accuracy comparable to laboratory testing instruments
- FDA cleared and FCC certified
- Roaming 4G/5G cellular connectivity

Pylo 900-LTE Blood Pressure Monitor

An advanced, customizable blood pressure device for cardiologists and experienced clinical users.

- Triple measurement mode
- Configurable patient reminders
- Three available cuffs: (16-36 cm), (22-45 cm), and (40-52 cm)
- Irregular heartbeat detection
- Accurate to ± 3 mmHg pressure and $\pm 5\%$ pulse
- FDA cleared and FCC certified
- Roaming 4G/5G cellular connectivity with 2G fallback

Pylo 802-LTE Blood Pressure Monitor

An intuitive, reliable device that simplifies remote blood pressure monitoring for patients and clinicians.

- Pre-configured for easy operation
- Available with standard (22 cm – 42 cm) or XL cuff (22 cm – 45 cm)
- Irregular heartbeat detection
- Accurate to ± 3 mmHg pressure and $\pm 5\%$ pulse
- FDA cleared and FCC certified
- Roaming 4G/5G cellular connectivity with 2G fallback

Pylo OX1-LTE Pulse Oximeter

A highly accurate pulse oximeter that provides blood oxygen saturation and pulse rate measurements that patients and their clinicians can trust.

- Pre-configured for easy operation
- Easy-to-read, high-resolution OLED display
- Durable design with high-quality materials
- Accurate to $\pm 2\%$ oxygen saturation (SpO2) and ± 2 pulse rate (bpm)
- FDA cleared and FCC certified
- Roaming 4G/5G cellular connectivity with 2G fallback
