DOCPACE®

OPTIMIZE YOUR SCHEDULE.
MAXIMIZE YOUR REVENUE.
NO EXTRA HOURS.

WHY DOCPACE®?

Healthcare schedules are unpredictable. Late arrivals, no-shows, and last-minute gaps quietly drain revenue, frustrate providers, and overwhelm staff. DOCPACE® transforms your existing EMR schedule data into a real-time, intelligent engine—empowering your team to optimize throughput, reduce waste, and recover lost revenue without hiring more staff or extending hours.

## DOCPACE® Manager:
Optimize Your Schedule in Real Time

Create a Dynamic, Real-Time Schedule

DOCPACE® Manager is your real-time dashboard for all schedule activity—monitoring patient flow, provider capacity, and appointment status in one place. It identifies delays and bottlenecks as they happen, enabling your team to reallocate resources, improve throughput, and recover lost revenue.

Gain Visibility Across Providers, Locations, & Workflows

Get a unified view of patient flow with configurable dashboards that surface late arrivals, high-risk no-shows, and scheduling gaps. This keeps teams aligned and ready to act before performance suffers.

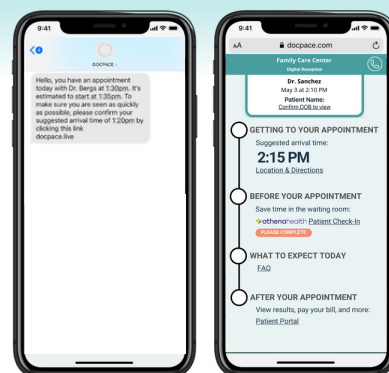

PATENTED

Patent No. 11,282,041
Patent No. 11,961,049

DOCPACE® Engage:
Keep Your Practice and Patients in Sync

Real Time Smart Reminders and Status Updates

DOCPACE® Engage delivers real-time appointment status updates that keep patients aligned, informed, and on track. It acts as a central touchpoint to educate patients, drive completion of pre- and post-visit workflows, and reduce outreach from staff. The result is the kind of modern experience patients now expect.

ON AVERAGE, A 10 PROVIDER PRACTICE USING DOCPACE® UNLOCKS:

$456K

DOCPACE® Insights:
Turn Your Data into Dollars

Dynamic Reporting Built for Action
Expertly crafted reports deliver real-time visibility into patient flow, operational performance, and schedule efficiency so teams can take immediate action to protect revenue and improve outcomes.

Insights Everyone Can Use
DOCPACE® is built for everyone—from the C-suite to the front desk—making it easy to analyze performance across providers, locations, and payers to improve access, efficiency, and revenue.

Measure Impact. Improve Continuously.
Insights support constant iteration, helping practices test operational changes, track performance, and optimize for long-term growth.

PROVEN RESULTS:

"DOCPACE® allows our operations team to view productivity data by clinical location and by provider in real-time...Instead of our team having to sort through multiple reports, we obtain all of the data in one convenient dashboard allowing us to make more strategic decisions to improve both patient care and our healthcare delivery."
