LiNK DIGITAL WHITEBOARDS

"COMMAND CENTRAL"

FOR UNIT & PATIENT INFORMATION

Fully customizable, digital patient whiteboards can set your facility apart when it comes to patient-centric care. Patients love knowing where to look for up-to-date information about their care plan and their care team.

Stay Connected. Stay Informed.

Common Concerns, Thoughtful Solutions

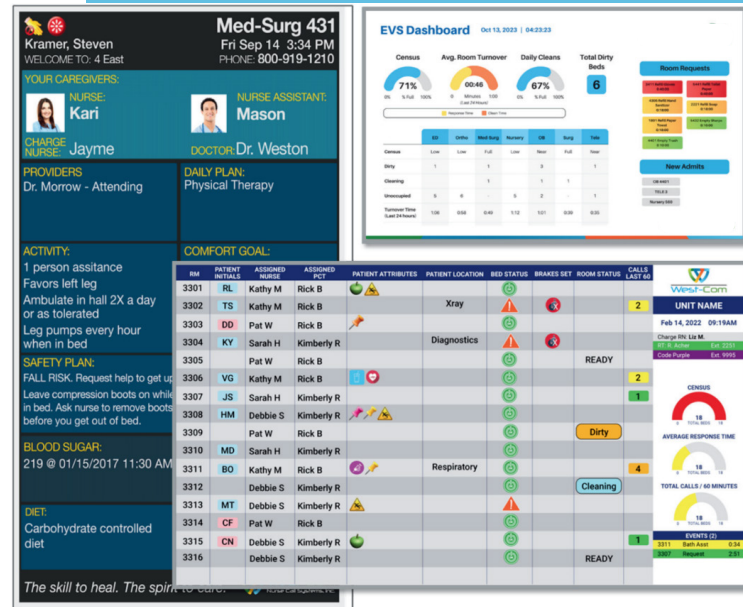

Patients often find dirty and outdated **whiteboards with minimal information**, leading to confusion about their care plan.

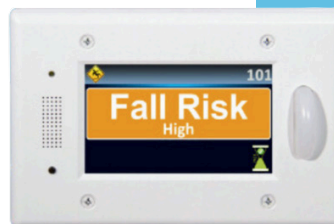

Integrated data sourced from Nurse Call, EMR, RTLS, and other systems provides a more comprehensive view of all aspects of patient care.

NO MORE "WHITEBOARDS." WAY MORE INFORMATION.

CUSTOMIZABLE WORKFLOW STATIONS

- Request assistance from team members
- Notify EVS for room cleaning or supply restocking
- Set reminders for patient care tasks
- Display important patient status alerts using digital signage

ABOUT WEST-COM & TV

- Healthcare Communications Systems Integrator
