

SOAP HEALTH VS. AI SCRIBES:

THE SMARTER SOLUTION FOR PRIMARY CARE PROVIDERS

SOAP Health is more than a note-taker—it's your all-in-one clinical assistant. Discover how SOAP Health outperforms traditional AI scribes by saving time, reducing errors, and enhancing decision-making.

 **SOAP**

AI Scribe

Automates intake, documentation, and workflows, saving providers hours daily to focus on patient care.

TIME SAVINGS

Minimal time savings, limited to transcription tasks.

Goes beyond transcription with advanced clinical insights and error detection to enhance patient safety.

CLINICAL ANALYSIS

Does not provide any clinical insights or error prevention.

Transforms into a true clinical partner, guiding workflows and elevating provider decisions.

ROLE IN HEALTHCARE

Limited to passive note-taking and transcription.

Affordable subscription delivering up to 30x ROI, making SOAP a smarter investment for practices.

COST EFFECTIVENESS

Higher costs for limited functionality.

Top-tier HIPAA compliance with advanced encryption ensures data is always secure.

DATA SECURITY

Limited focus on security beyond transcription.

Real-world validation with NCI-backed pilots and trusted endorsements from NIH & NHS proving SOAP's impact.

PILOT DATA & ENDORSEMENTS

Typically lacks real-world pilot data or trusted endorsements.

Wash away wasted hours.

Scrub errors for squeaky-clean care.

Keep data spotless and secure.

Bubble up 30x ROI.

Polished results, NCI, NIH, & NHS, - approved.
