

# Building a Better-Balanced Workforce

On one unified platform, we modernize and simplify the way you attract, convert, and retain talent.

Aligning with your goals while building affordable and sustainable solutions to meet workforce needs is at the heart of our approach.

## Control Labor Costs

Optimize core staffing, maximize use of flex pools, ensure strategic utilization of contingent labor with a fully integrated approach.

## Strengthen Hiring

Transform your candidate pipeline, fill vacancies faster across all labor types with flexible staffing models and modern tools.

## Gain Advantage

Leverage consolidated workforce data and market intelligence to drive strategies and more effectively compete for talent.

## What is the LiquidCompass® Total Workforce Platform?

LiquidCompass® is a comprehensive, integrated way to modernize how you build and manage your entire workforce (core, flex pools, and contingent). Next-generation design gives you end-to-end visibility, streamlined workflows and usable analytics that keep you informed and on track.

# One Unified Platform to Meet Your Total Workforce Needs

A single platform with end-to-end visibility, reporting, and analytics that drives efficiency and informs decisions.

## Talent Engagement Marketplace

Expand your talent pipeline, attract and convert more qualified applicants, reduce time to fill, accelerate hiring, and supercharge the functionality of your Applicant Tracking System.

## Market Console Advanced Data & Analytics

Gain actionable insights and competitive advantage using real-time data on market intelligence, employment trends, hiring activity, and key benchmarks at the local, regional and national levels.

## Next Generation VMS+

Go beyond traditional VMS to modernize and streamline the management of your entire flexible workforce, contingent and internal flex pools with clear and comprehensive vendor management configurations, features, and workflows.

## Concierge MSP Services

Fill jobs faster, reduce administrative burden, and reduce the use of contingent labor. Our vendor-neutral Managed Service Provider (MSP) program is customized to fit your needs. We'll help you negotiate and maintain optimal rates.

## Industry Expertise & Consulting

Create sustainable cost-reduction strategies to support the evolution of your workforce with the help of our 200+ years of combined industry expertise in leadership and innovation at health systems, big and small.

## Prolucent Exists to Solve the #1 Problem in Healthcare Today - Unsustainable Labor Costs.

We work together with you to optimize the use of data, technology and expertise to maintain control of labor costs and build a better, future-ready workforce. Led by a team of seasoned healthcare workforce executives, Prolucent is leading the change needed to meet the labor demands in healthcare through innovation and thoughtful disruption.
