CADENCE

Cadence is designed to partner exclusively with health systems to deliver virtual care to thousands of patients with chronic conditions.

Cadence combines cell-enabled remote monitoring devices for patients with a software platform and NP-led Care Delivery Team following nationally recognized clinical protocols to drive industry-leading outcomes.

## Cadence Drives Value for Patients, Clinicians and Health Systems

Patients
✓ Closes gaps in care for chronic diseases
✓ Improves long term outcomes
✓ Provides greater access to world-class care

Clinicians
✓ Strengthens the clinician-patient relationship
✓ Increases panel size
✓ Allows clinicians to work top-of-license and reduces burden

Health Systems
✓ Drives incremental fee-for-service revenue
✓ Increases quality bonuses & reduces penalties in value-based arrangements
✓ Improves network retention

IMPROVED CLINICAL OUTCOMES

STRENGTHENED RELATIONSHIP

BETTER CONNECTIVITY

CADENCE

## Cadence is driving industry leading outcomes

88%
Percentage of enrolled patients use devices frequently enough to support billing.

3.2x
Increase in CHF patients being prescribed 4 pillars of GDMT.

2x
Increase in number of patients with well controlled BP after 10 weeks in hypertension program.[2]

1%
of patient alerts require escalation to partner clinicians.

No Upfront Capital Required

Cadence covers the upfront costs of approved devices, deployment configuration, enrollment staff, clinical staff, technical support staff, and logistics. Our partners are only charged if patients are successfully engaged in both fee-for-service and value-based arrangements.
(21%)
average decrease in cost of care for ACO patients[3]

(50%)
reduction in number of patients seen in the ED[4]

Our team has designed a simple *patient-centric* experience

Cell Enabled Monitoring Devices
No need for an app, bluetooth, or wifi to submit a vital reading

Two-Way SMS Communication
Patient does not have to have a tablet or smartphone to participate

Readily Available Care Team
The Cadence team is available 24/7 to answer any patient questions, clinical or technical

78%
of patients are still enrolled and engaging at 6 months

97%
of patients feel more connected to and supported by their providers
