

Medical Grade Keyboard

Integrated Touchpad – Washable - Antibacterial

Are you looking for an “all-in-one” solution?

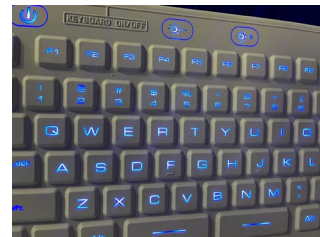

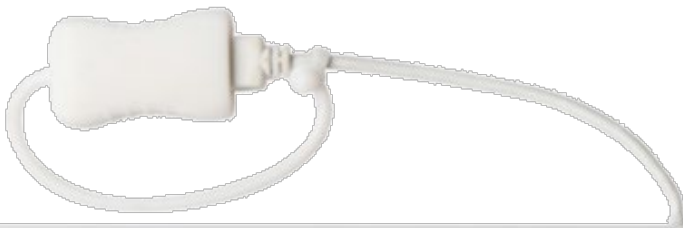

The Cleantype Prime Touch⁺ offers more than its rivals – more features, more innovations, more protection!

Its surface is waterproof and dustproof and can therefore be thoroughly cleaned and disinfected.

It can be attached to magnetic surfaces in a flexible way and is suitable for darkened environments where space is cramped thanks to its incremental lighting function and its slim design. Thanks to the touch pad, there is no need to use an additional mouse. It provides the writing comfort of an office keyboard.

Special features:

- IP68 waterproof
- Available in black or white
- Magnetic mounting
- Water resistant silicone USB cap
- EN60601-1-2 Ed 4 certified
- Completely washable & sanitizable
- Integrated capacitive touch pad
- Magnetic mounting
- Five-stage lighting function
- KeyLock function: lock the keys before cleaning the keyboard to prevent unintentionally typing while cleaning
- Germany quality control, innovation, and engineering

Illuminates for darker rooms
