

# Partnering with Health Centers

To support pregnant and postpartum patients.

**Optimize performance in value-based care contracts**

**Increase access to care**

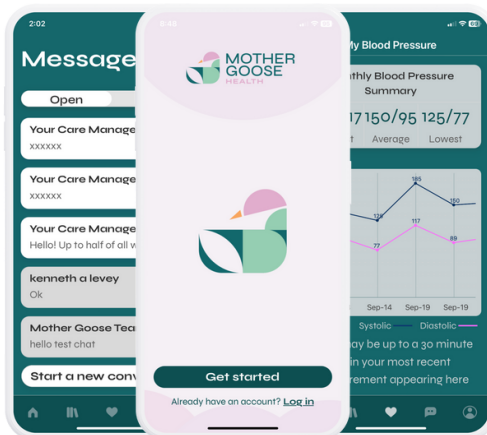

**Improve provider and patient satisfaction**

**Enhance and scale care management capabilities**

## Maternity Care Management with a Human Touch

Mother Goose Health is a technology-enabled maternity care management company delivering better outcomes by unifying the maternal health ecosystem to better support patients and providers.

**Bi-directional EHR integration**

**Rising-risk detection**

**Connected community resources**

**Closed-loop referral management**

## HOW IT WORKS

Mother Goose Health's Care Management platform fully integrates with the provider's EHR. Through our automated onboarding process patients gain access to our connected mobile application with no action required on the part of the provider. Existing practice care management teams, programs, services, protocols, workflows, assessments, and partnerships are integrated and optimized for efficiency and scale.
