

DRIVING VALUE FOR HEALTH SYSTEM PARTNERS

Together, we can clear the way for better health.

Providers are frequently asking for an integrated solution to view accurate coverage and cost information, and patients are desperate to understand what they'll pay for their care. Arrive Health brings payer and PBM data directly to provider and care team workflows, enabling access to the most affordable care options and an improved patient experience.

When health systems choose their data source, they select Arrive Health 100% of the time.

Deliver accurate cost and coverage data to the point-of-care

Arrive Health works on behalf of health systems, providers, and patients to drive appropriate and affordable treatment. We transform clinical, cost, and coverage data into real-time, transparent decision-making power and deliver it when and where it matters most.

Leveraging our robust network and integrated technologies, we enable meaningful conversations that enhance patient-provider encounters, drive access to quality care, and improve patient health.

PROVIDERS

Helping providers make the best decisions at the point of care.

CARE TEAMS

Helping care teams reduce friction and improve care compliance.

PATIENTS

Helping patients access affordable care.

“With Arrive Health, we can see cost data when the patient is in the exam room, and we can make the best care decision together.”

CMIO FROM A NATIONALLY
RANKED HEALTH SYSTEM

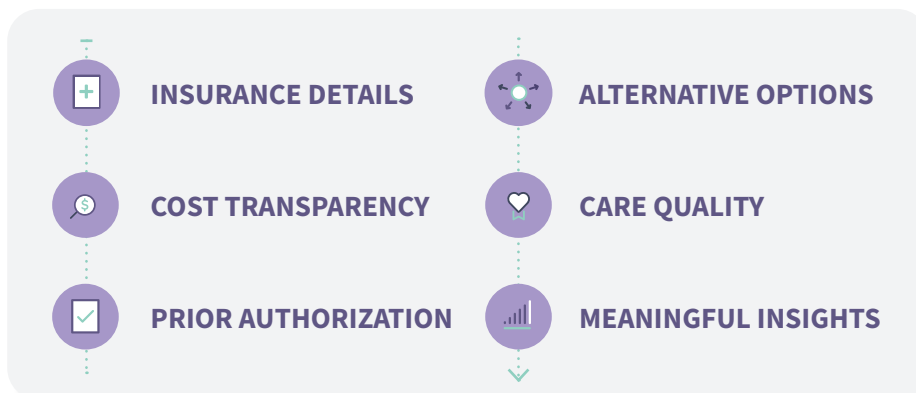

Content we deliver:

Arrive Health's solutions deliver real-time, patient-specific data to integrated workflows.

Providers and care teams can use this information to make the most effective, affordable care decisions with their patients, while reducing administrative burden and improving care quality.

End-users of Arrive Health's solutions can easily view:

- Patient out-of-pocket price
- Price to the plan
- Lower-cost alternatives
- Prior authorization notifications
- Preferred specialists
- Pharmacy, lab, and imaging locations
- Gaps-in-care
- And more
