

Virtual **Sitter**

Hicuity Health Virtual Sitter service leverages a technology-enabled monitoring staff to maximize the safety of patients who are at risk for elopement, falling, or other patient safety events, while eliminating the inefficiencies of 1:1 sitting.

BENEFITS

Patient Safety

Delivers safety results equivalent to physical sitters for appropriate patients by reducing fall risk, elopement, and other self-hazards.

Peace of Mind

Family members are comforted by the continuous monitoring and improved safety for their loved ones.

Significantly Improved Sitter Efficiency

Technology-enabled monitoring offers significant operating savings, with payback typically in less than 2 months.

Simplified Operations

Eliminates management headaches associated with hiring, training, and managing a sitter team.

Extended Sitter Coverage

Flexible solution and improved efficiencies enable sitter coverage of all appropriate patient candidates, not just those with highest need.

FEATURES

24/7/365 monitoring

Certified sitters

Exclusive focus on patient safety

Continuous video stream, including 2-way A/V capabilities

Ability to rapidly alert bedside team

Low light camera capabilities enable night-time monitoring
