

Outshine Your Competition with a Perfect Online Reputation

🌐 rater8.com | ✉ info@rater8.com

Effortlessly build 5-star patient reviews with our top-rated healthcare reputation management solution.

SOLUTIONS

Online Review Builder: pollin8™

- Send fully automated online review requests to patients via text or email
- Increase 5-star reviews for all of your practice's locations and providers, across every major healthcare review platform
- Automatically direct patients to the listings and review platforms that need the most attention
- Monitor and respond to online reviews directly from the rater8 dashboard

Patient Satisfaction Surveys

- Gain meaningful insights about patient experience with automated satisfaction surveys, designed to be completed in seconds
- Analyze feedback in real-time, benchmark results against similar organizations, and easily identify areas for improvement
- Publish the best 5-star testimonials to your practice's website, provider bio pages, and social media

INTEGRATIONS

Integrating with over **100 leading practice management and EMR systems**, rater8 ensures all post-visit surveys and review requests are fully automated, hands-free, and sent exclusively to verified patients.

TESTIMONIALS & AWARDS

"Our experience with rater8 has been extremely positive. They've made receiving patient feedback and generating online reviews easy. We went from receiving about 30 reviews for our 25 doctors combined a year, to 200-300 a month, with more than 95% of those being 5 stars."

Darin Shumacher

"In 25 years of business, I've never seen a vendor come in and deliver on a promise like rater8. I implemented rater8 in two different practices, and they're delivering the exact same results with incredible speed."

Bradley Scheel

"rater8 has grown our practices quickly and with little effort from me. My doctors love the success of their online reputations, and for a very affordable price. I would recommend rater8 to everyone!"

Madison Miles

rater8 is the **top-rated** healthcare reputation management solution on **Capterra** and **G2**!
