Company

Status Alert LLC is an Atlanta-based company dedicated to improving lives by offering highly affordable, advanced technology solutions, to increase medical adherence and to minimize hospital readmissions among elderly patients with chronic illnesses.

Product Features

- Easy-to-use. Intuitive. Senior-friendly.
- Remote Therapeutic Management (RTM).
- Telehealth - integration ready.
- Wi-Fi cloud connectivity. Real-time tracking.
- Notifications: Push, SMS, E-Mail.
- Caregiver alerts and available data sharing.
- Graphs and historical adherence analytics.
- Portable, sturdy container with secure lock, large clock, and audible flashing alarms.

Solution

RxKeeper® is an affordable medication adherence solution – a mobile container connected by cellular connection which helps individuals improve their lives. The solution includes an App which provides transparency and insights to the user, healthcare provider, concerned family members, and payer. Medication non-adherence is linked to ~125,000 deaths per year in the United States alone and has been called the costliest health problem in America.

Turnkey Medication Adherence System for an RTM Program

RxKeeper® User

Patient stores the Medication inside the RxKeeper® box

4G Hotspot

RxKeeper® data transmitted via cellular modem
