REIMBURSEMENT TREE

RPM, CCM, TCM, RTM, PCM & other virtual care programs reimbursed by CMS under the 2024 Physician Fee Schedule (PFS)

VIRTUAL CARE CMS REIMBURSEMENT CODES Physician Fee Schedule 2024

Remote Physiologic Monitoring (RPM) - Since 2019

Remote monitoring using technology to collect patient physiologic data (Blood Pressure, Weight, Blood Glucose, Etc...) outside of conventional clinical settings and provision of interactive communications with patient / Under General Supervision / RPM is an E/M-based Service, therefore can be billed by physicians and is for **Any qualifying patients**

RPM + CCM COMPLEMENTARY - THEY CAN BE BILLED TOGETHER

Chronic Care Management (CCM) - Since 2015

Care coordination of patient services for multiple chronic conditions, psychosocial needs and activities of daily living / Under General Supervision / CCM is an E/M-based Service, therefore can be billed by physicians and is restricted to **Patients with two or more Chronic Conditions**

Principal Care Management (PCM) - Since 2020

Specialists-driven remote care coordination / Patient with singular and serious condition / Can be billed during the same month as RPM and CCM

Transitional Care Management (TCM) - Since 2013

Coordination of patient services for medical conditions, psychosocial needs and activities of daily living. Goal is to avoid patient readmission for the full 30-day post-discharge period / Can be billed during the same month as RPM and CCM

Remote Therapeutic Monitoring (RTM) - Since 2022

Remote monitoring using technology to collect patient non-physiologic data (Respiratory System Status, Musculoskeletal System Status, Therapy Adherence, Therapy Response) outside of conventional clinical settings and provision of interactive communications with patient / Under General Supervision / RTM is NOT an E/M-based Service, rather a set of general medicine codes, therefore can be billed by nurses and physical therapists and is available for **Any Patients**

Self-Measured Blood Pressure (SMBP) - Since 2020

Patient empowered to play a more active role in a self-care program, including data collection and reporting, reviewed monthly by their care team / Patients neither on RPM nor CCM programs
