

TeamBuilder™

The first predictive staff scheduling platform.

Empowering healthcare to build the right team for tomorrow, today.

TeamBuilder is designed specifically for ambulatory care and is comprised of two modules:

Today Digital Schedule

Easy-to-use digital platform that allows managers to see who is available, set schedules, manage tasks and communicate shifts in real-time from both web and mobile.

Tomorrow Recommendation Engine

Prompts managers with the ideal team based on intraday volume, practice workflow and organizational constraints.

No more paper. No more guessing.

An execution-first, staff scheduling platform that provides real benefits.

Efficiency Gains

52%

Less time needed to create and manage schedules

Financial Improvement

9%

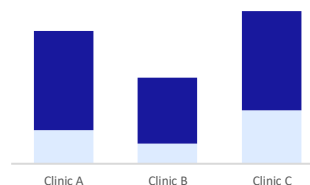

Reduction in payroll

Improved Experience

100%

Schedule communication done via platform

Actionable Insights

Full visibility across sites and specialties

Results from St. Joseph's Health a Member of Trinity Health
