installation, implementation,
and training

24/7/365 customer and
technical support

Level up communication in your care environment.

Today's life safety and healthcare communication technology isn't just about alerts and alarms... it's about efficiency, workflows, safety, patient satisfaction and staff retention. It's a lot to ask, but we've got you covered.

Digital workflow tools and digital signage make communication practical, efficient, and highly effective.

Integration with data portals and other technologies can turn West-Com's simple yet powerful nurse call system into the **center of care for any care area.**
