

Driving Innovation

With RFID SuperPowers

(Radio Frequency Identification)

RFID Benefits

Comparing to Barcode

Fast Scanning

Can be Protected or Hidden

Little or no Human Intervention

Far Scanning

Multiple Form Factors

Did you Know?

Simultaneously **scan** 100s of items **within 5 seconds**

Unlike Barcode, RFID code can be **hidden** for **security** or cosmetic reasons

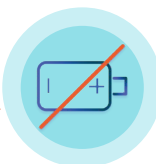

Detect, recognise and report without **human trigger**

Can **scan** from a distance of **1 to 3 feet away**. (depending on the tag and reader)

Its available in various forms like **metal**, **plastic**. Ability for **durability** and **applicability**

RFID Benefits

Comparing to RTLS

Battery Less Tags

Batter less means longer life span, lowering costs and increasing efficiency.

Small Profile Tag

Tags are compact and unobtrusive for precision tracking and better performance.
