

## CONNECTED MIND

### Proactive tools work

Mental health changes over time, so we cannot treat it as “one-and-done”

- ◇ **Screen patients at each visit**
- ◇ **The screenings work on a tablet or over telemedicine and are billable to insurance**

### Traditional mental health solutions are reactive and respond to a crisis.

Connected mind replaces traditional mental health screening by screening for 6 comorbid conditions simultaneously. For most people the screening takes less than a minute. When triggered, it builds a personalized screening for just what is indicated. When the screening is complete, you're given a mental health profile of the patient, so you know what areas to treat or refer.

### Billable to Insurance—Quick Reference:

Type	Performed By	Code	Conditions	Minimum Time	Allowable	Telemed Usable	Audio Only
Screening	Any	96127	1-2	NA	\$4.80	Permanent	Yes
Test Administration	Provider	96136	2+	16 Minutes	\$45.44	Through 2023	Yes
Test Administration	Technician	96138	2+	16 Minutes	\$36.05	Through 2023	Yes
Test Evaluation	Provider	96130	1+	31 Minutes	\$122.53	Through 2023	Yes

*"I have everything I need to make a plan before I go into the exam room. I am able to be proactive, which saves me significant time. I feel I am doing a better job assessing my patients. I recommend using Connected Mind."* **Gustavo H Day MD**

*"Connected Mind has been invaluable in helping me to identify underlying mental health conditions in my patients."* **Lucio R Gonzales, Jr. PA-C**

*"Connected Mind helps me to identify mental health conditions that I often would not catch without this type of tool. It helps me to provide better patient care and takes significantly less time."* **Derek LeJeune MD**
