Xccelerate Your Success With Innovaccer's Technical Platform Accelerators

On the #1 data platform for value-based care

innovaccer

WHY?

Data is a fragmented, siloed, complex maze for healthcare organizations to navigate

- Only 20% fully trust their data

- 51% cited integration and interoperability as the most significant barriers to accelerating digital transformation

- 85% say real-time and harmonized data is vital to make critical decisions

WHAT?

Innovaccer's Technical Platform Accelerators enable

- Rapid data integration and normalization between EHRs and other HIT

- Coding and care gap closure

- FHIR and Cures Act compliance

WHEN?

Innovaccer offers modular components and services that plug a discrete functional value into your platform that helps

- Establish data readiness for a strong, future-proofed data foundation

- Monitor and validate quality across the data pipeline

- Rapidly deploy or develop applications for specific use cases

HOW?

Innovaccer's Technical Platform Accelerators simplify your health system's data-ready capabilities

- Get faster time to value

- Reduce development, deployment, and infrastructure costs

- Managed service model to scale as per business needs

Innovaccer is "the X factor" for Xccelerating Success for Our Customers

innovaccer ✕ **Banner Health.**

= 70%
reduction in pop health IT infrastructure costs

innovaccer ✕ **Central Maine Healthcare**

= 9.5%
average reduction in readmission rates across populations

innovaccer ✕ **MERCYONE.**

= $890k
total readmission costs avoided with successful TCM protocols
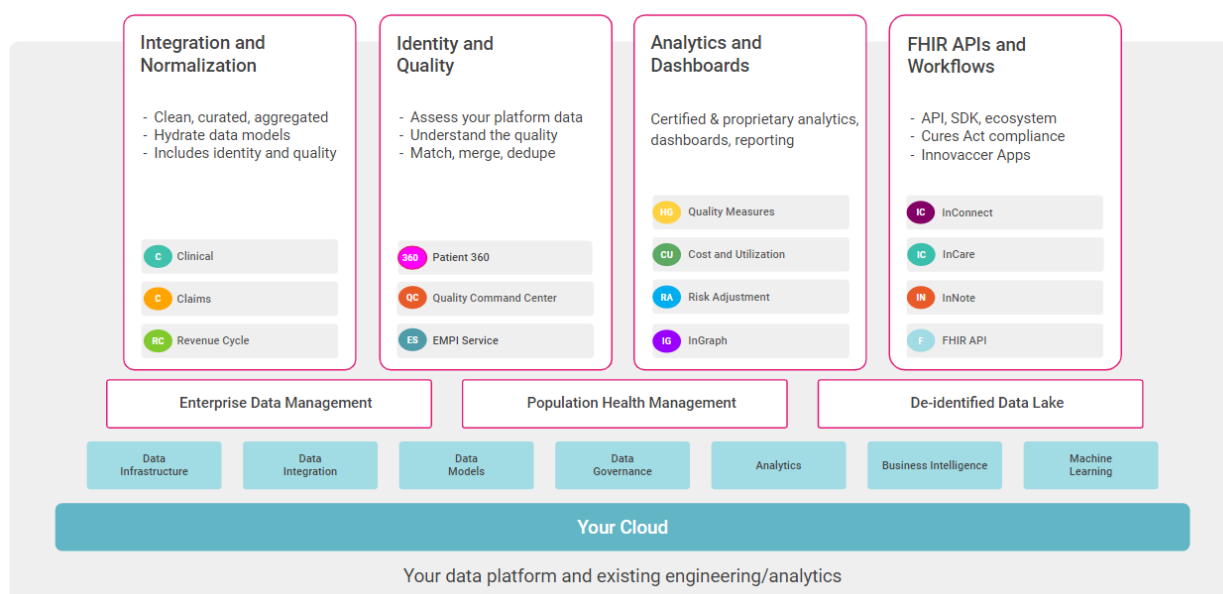

innovaccer

Innovaccer Solution

Innovaccer can help health systems achieve greater levels of digital maturity and data readiness faster with a scalable and compliant data platform to:

- Improve platform data quality and create unified patient records
- Enhance enterprise-wide financial, clinical, and operational analytics capabilities
- Extend your current platform capabilities with FHIR APIs for data mapping/ curation and integrating a third-party app development ecosystem
- Close EHR data and analytics gaps by embracing and extending the EHR

Innovaccer Platform Accelerators

Integration and Normalization	Identity and Quality	Analytics and Dashboards	FHIR APIs and Workflows
- Clean, curated, aggregated - Hydrate data models - Includes identity and quality	- Assess your platform data - Understand the quality - Match, merge, dedupe	Certified & proprietary analytics, dashboards, reporting	- API, SDK, ecosystem - Cures Act compliance - Innovaccer Apps
		HG Quality Measures	IC InConnect
		CU Cost and Utilization	IC InCare
C Clinical	360 Patient 360	RA Risk Adjustment	IN InNote
C Claims	QC Quality Command Center	IG InGraph	F FHIR API
RC Revenue Cycle	ES EMPI Service		

Enterprise Data Management	Population Health Management	De-identified Data Lake

Data Infrastructure	Data Integration	Data Models	Data Governance	Analytics	Business Intelligence	Machine Learning

About Innovaccer

Innovaccer Inc. is the #1 data platform for value-based care. The Innovaccer platform unifies patient data across systems and care settings, and empowers healthcare organizations with scalable, modern applications that improve clinical, financial, operational, and experiential outcomes. Innovaccer's EHR-agnostic solutions have been deployed across more than 1,600 hospitals and clinics in the US, enabling care delivery transformation for more than 96,000 clinicians, and helping providers work collaboratively with payers and life sciences companies. Innovaccer has helped its customers unify health records for more than 54 million people and generate over $1 billion in cumulative cost savings. The Innovaccer platform is the #1 rated Best-in-KLAS data and analytics platform by KLAS, and the #1 rated population health technology platform by Black Book.
