

NATIONWIDE ANESTHESIA SERVICES, INC.

Having never worked with a VMS before, Nationwide enlisted the services of Ringo to help streamline their accounting and credentialing.

AT A GLANCE

Challenges

- Duplicate data entry
- Slow accounting processes
- Document control

Results

- Decreased turnaround time
- Increased transparency
- Seamless accounting

Ringo is responsive to our teams' feedback by implementing changes on the platform that have created efficiencies in our workflows. Communication from their team is quick and responsive.

Heather Spinetti

NE Staffing Director
Nationwide Anesthesia Services,
INC.

SUMMARY

Nationwide's largest client struggled to streamline its accounting and payroll. There was no transparency. They were wasting time with duplicate data entry and encountered several issues with speed, centralized documentation storage, audit trails, and credentialing.

SOLUTIONS

Ringo's VMS delivered a simplified platform with extensive reporting capabilities and seamless accounting functionalities that allowed for faster data entry and authorization of timesheets, eliminating duplicate data entry, and providing document control.

Ringo's seamless workflows added a layer of transparency that helped to efficiently manage tasks.

RESULTS

After a quick implementation, there was no downtime. The platform was intuitive, and the interface was easy to use, it saved the team countless hours compared to other Vendor Management Systems that have steep learning curves.

The Ringo platform decreased turnaround time, helped to mitigate risk with consolidated document control, and increased transparency through seamless workflows.

Ringo's quick response time and dedicated customer service ensured all Nationwide's needs were met and the platform tools were aligned to solve their challenges.
