

# VER-CLINIC

Versatile, compact, and fully integrated telehealth system for in-clinic patient examination

## FEATURES

- Virtual Exam Room (VER)-enabled for remote patient exams and consultations.
- High mobility, small footprint, and easily maneuvered between rooms or floors and into small spaces.
- PTZ (Pan, Tilt, and Zoom) Camera enables close patient examination by a remote clinician using VER from Care Central Services.
- Miracast-capable projection onto display of large in-room monitors.
- Cybersecure FDA 510k Class II IDM100 Medical Tablet provides comprehensive diagnostic capability with an intuitive, easy-to-use interface.
- Cleared for use for all patient populations (neonate to adult).
- Standard medical accessories include complete vitals with:
  - NellCor OxiMax SpO<sub>2</sub> Sensor
  - SunTech Blood Pressure Cuffs
  - Medtronic Genius™ 2 Tympanic Thermometer
  - 12-lead ECG
- Expandable platform includes options for:
  - Electronic Stethoscope
  - 3-lead ECG
  - Spirometry
  - Medical Cameras
- Seamless EMR Gateway (HL7).
- Extends the reach of Primary Care, Urgent Care, TeleStroke, and TelePsychiatry Health services to patients.

VER-Clinic telehealth cart expands the power of telepresence to healthcare environments. Designed for mobility and ease of use at the point of care, this fully integrated telehealth solution extends the reach of the clinical team by providing comprehensive vital signs, cardiopulmonary data, and medical images for immediate diagnostic assessment of a remote patient.

## ACCELERATE PATIENT CARE

Access to quality care is no longer limited by geography. Using Virtual Exam Room (VER) capability, healthcare providers can overcome the barrier of distance, increase patient access to care, and work more productively.

VER provides immediate access to clinical care by connecting remote clinicians to specialists using videoconferencing and simultaneous viewing of diagnostic data and medical images for immediate assessment and clinical decisions.

## EXPAND CLINICAL REACH

The secure PTZ video conferencing camera is remotely controlled by a remote physician providing a positive patient experience.

VER-CLINIC is ideal for use in remote patient consultations, virtual care examination at remote and rural clinics, skilled nursing facilities, and correctional institutions.

MADE IN USA

## CART SPECIFICATIONS

Weight range	30 to 40 LBS (13.6 to 18.1 KG)
Total cart height range	47" (119.4 CM) to 63" (160 CM)
Slim-line base	20.1×16.2" (51.1×41.2 CM)
Casters (4 locking)	5" (12.7 CM) diameter
Foot pedal height adjustment with gas spring assisted control	
Integrated cable management	
Rear Column Dual handle with padded grips	

## STOR-LOCX WITH REAR ACCESSORY BINS — KEY LOCK

3 bay lockable, removable cassette with lid with key lock
Rear slotted accessory bins

## POWER STRIP (OPTIONAL) — U.S. ONLY

15' (4.6 M) cord, hospital grade plug, 4 outlets
VELCRO brand cord wrap

## PTZ HD VIDEO CONFERENCING CAMERA

Optical zoom	10X
Resolution	1280×720 PX @ 30 FPS
Field of view	57 degrees
Warranty	2 years

## SPECIFICATIONS

Monitor/Display	Full-color, 10.1" (26 CM) capacitive touchscreen with 1280×800 PX resolution
Wired/Wireless Connectivity	Network Standard: WiFi 802.11 b/g/n, Bluetooth low-energy 4.0 Wireless Network Security Support: WPA2-PSK AES
Battery	Battery Type: Li-Ion (6-cell) rechargeable, 7.2 V, 6 A Operating Time: 4.5 hours, rechargeable <3 hours
Power Supply	Output: 12 V, 2.5 A Input: 100–240 VAC, 50/60 HZ Class II
Cleaning	Cleaning Agent: Mild soap or detergent Disinfecting Agent: Isopropyl Alcohol, Hydrogen Peroxide
Environmental Conditions	Operating Temperature: 0° C to 40° C (32° F to 104° F) Relative Humidity: 15% to 90% (non-condensing)

## AGENCY COMPLIANCE — IDM100 MEDICAL TABLET

Regulatory	FDA 510(k) Class II clearance
