

WHAT WE DO

We offer high quality recipes from top publishers that are nutritionally tagged and analyzed and can be used as meal recommendations or recipe suggestions by health, wellness or food businesses.

OUR IMPACT

UNIQUE ASSET

We are one of only two companies that has large dataset of quality recipes with detailed nutrition data.

CUSTOMIZED SOLUTIONS

Edamam works with clients to develop recipe selections that fit very targeted needs.

QUALITY CONTENT

The recipes we offer come from top publishers and are for the most part kitchen tested.

CHALLENGES WE SOLVE

- 1 High quality recipes are essential content in managing people's diets and assisting them in grocery shopping or cooking.
- 2 Developing high quality recipe content is very expensive with cost of \$1,000+ per recipe.
- 3 Businesses whose core is not recipe development have few sources to find quality recipe content that is affordable.

HOW WE ARE UNIQUE

- 1 We offer one of the largest datasets of quality recipes from top publishers.
- 2 All recipes are nutritionally tagged and analyzed for 130 nutrients and 40+ popular diets, including all allergens.
- 3 We offer custom solutions for chronic conditions, special diets or specific use cases.

OUR DATASET

- 300,000+ high quality recipe. The majority are kitchen tested.
- 40,000 have photos. Video recipe library available soon.
- Tagging for all major macro and micronutrients, allergens and all lifestyle diets.
