

LiNK RTLS

Real-Time Locating Systems

RTLS Solutions for Safety, Security, and Equipment Monitoring

LiNK RTLS delivers powerful tools like staff duress alerts and asset tracking, enhancing emergency response times and replacing wasted time searching for equipment with quality time delivering patient care.

Learn more about the complete smart room solution at WestComTV.com.

LiNK RTLS

EMPOWERING CARE THROUGH REAL-TIME MONITORING AND SAFETY SOLUTIONS.

LiNK RTLS is designed to transform healthcare operations by providing unparalleled visibility and control.

Common Concerns, Thoughtful Solutions

Duress alerts with pinpoint accuracy help your team respond quickly to incidents and contribute to a safer work environment.

Real-time asset tracking reduces time spent searching for equipment by displaying locations on nurse consoles and monitors.

Visual Identification ensures patients feel confident in knowing who is entering the room by displaying staff names and photos on monitors upon entry.

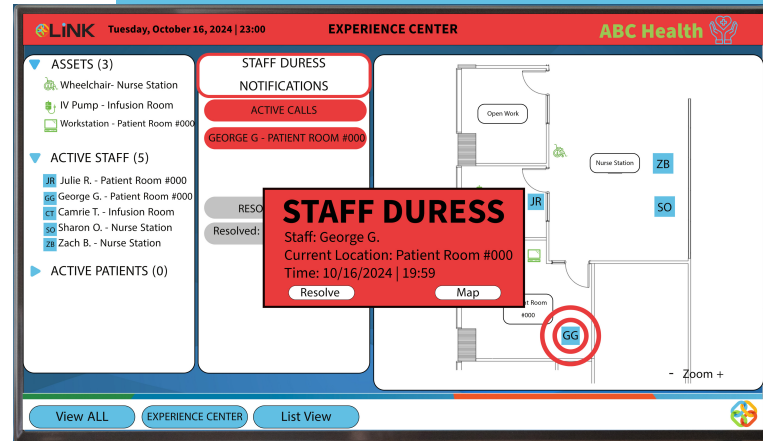

Analytics and reporting capabilities take the guesswork out of decision-making and become the source of truth for accurate reporting.
