

The complete US healthcare universe, mapped.

Every health system, hospital, practice and site of care mapped in accurate org hierarchies, with every healthcare professional and executive affiliated to the site where they actually work. Built for teams that sell into US healthcare.

From data to pipeline

One platform replaces Definitive, ZoomInfo and an outreach tool. Saves \$40K to \$80K a year.

			
Build Precise Lists	Reach Verified Contacts	Run Outbound Natively	Take the Data Anywhere
 Plain-English search or specialty, license and service-line filters	 Professional, personal and academic emails, direct dials, LinkedIn	 Multichannel sequences: email, auto-dialer calls, LinkedIn, tasks	 REST API with webhooks and bulk NPI email enrichment
 80+ buying signals: job changes, hiring, leadership moves, M&A	 60% to 90% verified coverage, 2x ZoomInfo and Apollo	 Zeus AI personalizes every email from live prospect and org insights	 Claude MCP connector: query the full database for deep research
 AI research columns answer any question, row by row	 Site-level matching, not email domains; any NPI by API	 Unified inbox , mailbox rotation and campaign analytics	 CRM sync to Salesforce and HubSpot , plus list exports

Integrations

Sync data and activities between Dmand and GTM tools like **Salesforce**, **HubSpot**, **Google**, **Outlook** and **Slack**.
