

The Censinet Advantage: Transform TRPM with the Industry's Fastest, Most Affordable Solution

As healthcare organizations struggle to manage third-party risk with limited resources and antiquated spreadsheets, Censinet RiskOps™ delivers a faster, better approach. Purpose-built for healthcare, Censinet RiskOps™ is powered by unique workflow automation that enables you to complete risk assessments faster and more effectively versus any other TPRM solution.

Here's 16 reasons why Censinet RiskOps is the right answer for your TPRM program

	 CENSINET®	Other TPRM Solutions	Censinet Advantages and Proof Points
Purpose-Built for Healthcare	✓	—	Designed for healthcare-specific risks and healthcare standards (HIPAA, NIST CSF, CPGs)
Fastest Assessment Completion Times	✓	—	Workflow automation reduces assessment completion times to a few hours vs. weeks
Only Multi-Sided Risk Exchange	✓	—	Secure sharing of longitudinal cyber risk data across vendor and product lifecycle
Fastest Vendor Response Times	✓	—	Vendors instantly share previously-completed questionnaires with 1-Click Assessments™
Largest Inventory of Vendors/Products	✓	—	Digital Risk Catalog™ contains over 40,000 vendors and products, ready for assessment
Continuous Risk Monitoring	✓	—	Breach & ransomware alerts and security scans for vendors in your third-party portfolio
100% Coverage of All Third-Party Risks	✓	—	Assessment types for vendors, products, services, medical devices, non-technical suppliers
Automated Corrective Actions Plans (CAPs)	✓	—	Automated assessment findings with recommend remediations based on vendor responses
CAP Findings Assignment & Tracking	✓	—	Findings assignment and tracking – internally and externally – to ensure timely closure
Total Ecosystem & Enterprise Integration	✓	—	ServiceNow Connector, Open API, and Enterprise Collaboration accelerates workflow
Actionable, Real-Time Risk Insights	✓	—	Censinet RiskOps™ Dashboard aggregates risk posture, enables drill-down for actionable insight
On-Demand Managed Services	✓	—	Leverage the Censinet MSP team as assessment volume, resources, and capacity change
Risk Register with Ecosystem Orchestration	✓	—	Manage all TPRM + ERM assessment findings with internal/external assignment and tracking
Intuitive, Board-Ready Reports & Dashboards	✓	—	Easily report out to the Board on TPRM performance, risk posture, and key risk exposures
Fastest Time-to-Value	✓	—	Dedicated Customer Success team ensures time-to-value in less than one week
Most Affordable Solution	✓	—	Competitive pricing and flat rate incentivizes unlimited assessments
