

# Provider Credentialing & Payer Enrollment

Credentialing is complex and time-consuming, but it doesn't have to be.

QGenda breaks the status quo, delivering a single source of truth for provider credentialing data and enabling you to complete the entire process **faster and easier**.

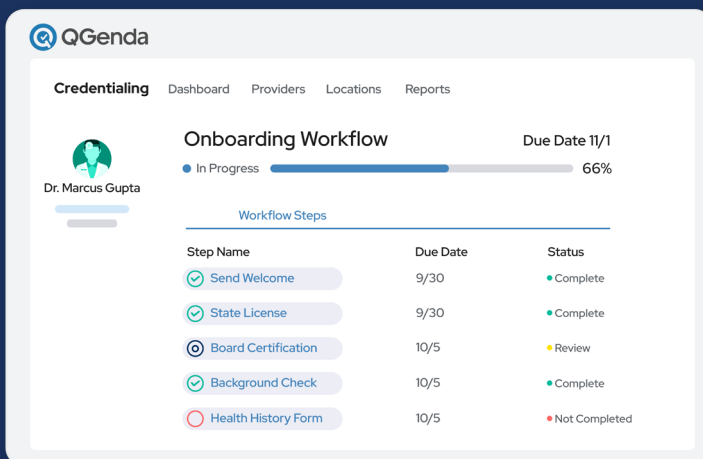

## With QGenda, your organization can:

- Save time and reduce repetitive, manual entry
- Gain centralized visibility into accurate provider data
- Increase provider and administrator satisfaction
- Improve 'time to revenue' of newly hired providers
- Ensure compliance to safeguard patient safety
- Maximize opportunity for complete reimbursements

**QGenda's innovative, cloud-based solution simplifies credentialing, privileging, and payer enrollment – delivering a repeatable, predictable, and scalable process from start to finish.**

## Provider Credentialing

Seamlessly onboard and verify credentials through automations and user-friendly features.

- Configurable workflows
- Import tools for faster, more reliable onboarding
- Automated primary source verifications, ongoing monitoring, and proactive alerts
- Provider self-onboarding and self-service portal
- Unlimited form mapping
- Form auto-completion
- Embedded e-signing
- Tracking dashboards with real-time data notifications
- Fully customizable reports
- Open API

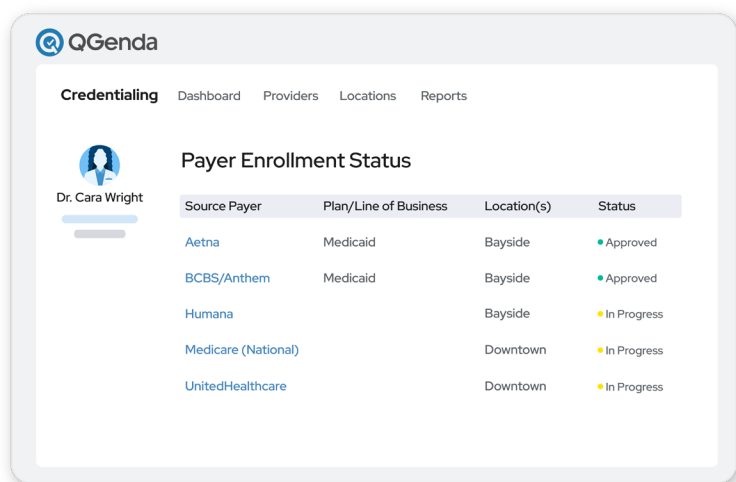

## Privileging

Improve efficiency and flexibility with automated data collection and a fully electronic review process.

- Virtual / Digital Committee Review
- Flexible and configurable privilege templates
- Packet generation
- Privilege status look-up page
- OPPE, FPPE, and Peer Review management and tracking
- Affiliation verification
- Bulk re-credentialing

## Payer Enrollment

Complete applications and update rosters quickly and track enrollment progress and status.

- Roster management
- Extensive commercial and government payer applications library
- Auto-population of any PDF and online applications
- Embedded e-signing
- Dashboard view of payers and enrollment status
- Proactive alerts for re-enrollment dates
- Configurable reporting
- Open API

## Provider Experience

Make providers happier with a faster, easier onboarding process that includes a convenient Provider Portal for providers to:

- Receive clear communication on expectations and requirements
- See all location assignments, appointment dates, and privilege status
- Quickly complete auto-populated applications
- E-sign documents
- Save and access credentialing files through the document library
- Access information and complete tasks on-the-go via mobile
- Stay compliant by easily updating expiring documents
