

## Virtual Team Collaboration

### ThinkAndor® – Providing robust tools for collaboration & secure communications.

ThinkAndor® provides a secure, HIPAA compliant platform enabling care team collaboration and clinically focused secure communications across the entire care continuum.

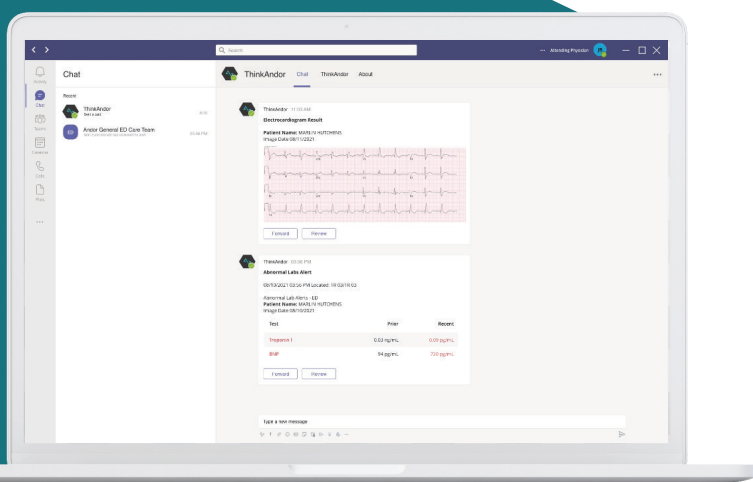

ThinkAndor® enables enhanced virtual collaboration via artificial intelligence (AI) based notifications through audio, video, and text. These signals are pushed directly to clinical teams and allow them to personalize the workflows needed to improve and expedite patient care.

#### ThinkAndor® for Care Team Configuration

- Configure individual roles and teams driving appropriate communications
- Curate enterprise AI-based communications for users, roles, shifts, and teams
- Automate escalation ensuring message delivery and review
- Review, escalate, delegate, and forward messages

- Customizable end-user data and communication channels

#### ThinkAndor® for Care Team Communication & Collaboration

- Automated push notifications sent via SMS text and email using assigned roles and teams
- Automated push notifications using assigned roles and teams
- Event-based notifications for clinical alerts across care settings
  - Patient care & best practice advisory alerts
  - Quality measures & critical results
  - Clinical care gap alerts
  - Outpatient surgical schedule
  - Admit, discharge, and transfer (ADT) notifications
  - Pre-op/pre-visit paperwork notifications
  - Emergency department and surgical schedule changes
  - Hospital throughput analysis
  - Prior authorization failures
- ThinkAndor® Bot initiates multi-disciplinary collaborations between care team members

#### About Andor Health

At Andor Health, our mission is to change the way care teams connect and collaborate. By harnessing machine and human intelligence, our cloud-based platform unlocks data stored in electronic medical records to deliver real-time actionable intelligence to care teams – both inside and outside of their enterprise. By optimizing communication workflows, our solutions accelerate time to treatment, decrease clinician burnout, and drive better patient outcomes. For more information, visit Andor Health or follow us on LinkedIn and Twitter.

“Leveraging ThinkAndor has allowed us to extend our capabilities, enabling us to pull together multiple systems with one unified platform, resulting in greater collaboration among clinicians,” said Novlet Mattis, chief information officer, Orlando Health.
