With clients like **you** feeling the financial burden the most.

2%

of patients have access to the best care

+38%

increase in MSK spend

22m

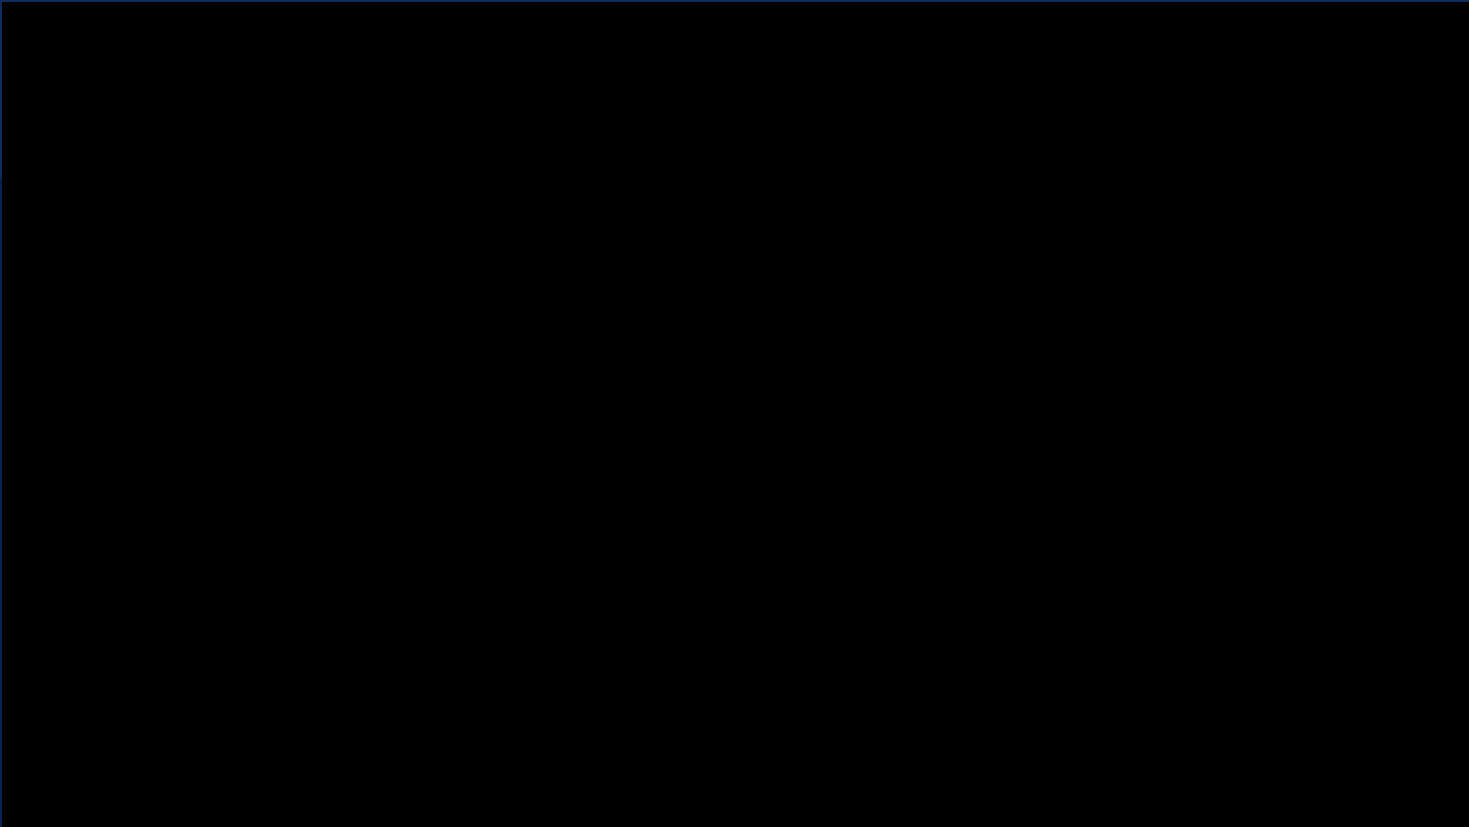

Avg. cost for 40,000 members.
Huge direct medical spend.

11.4

Average number of workdays lost
per person per year.

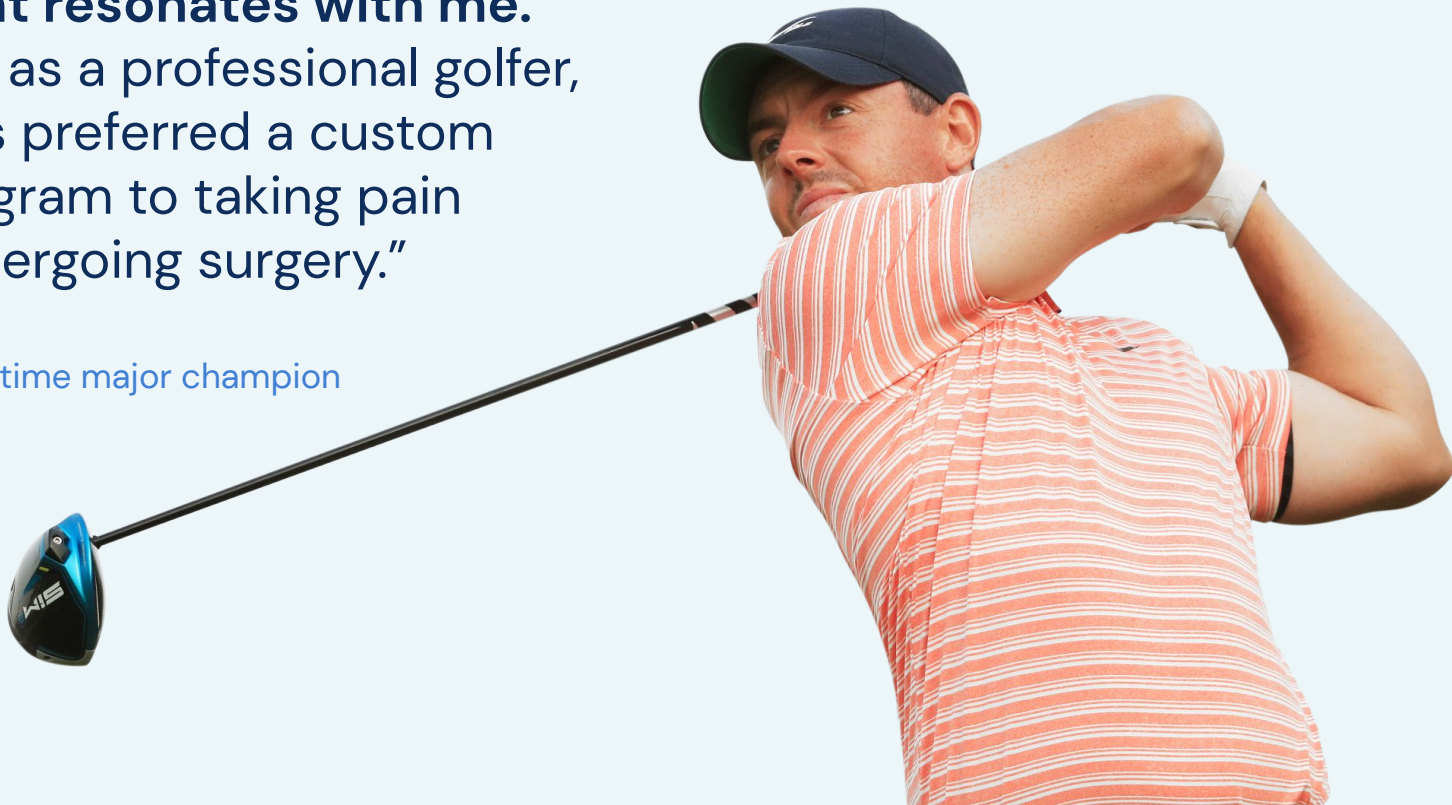

Why we're different

Kaia is the most scalable MSK solution by combining cutting edge technology with human care to drive superior outcomes.

“Kaia’s approach to pain management resonates with me. In my career as a professional golfer, I have always preferred a custom exercise program to taking pain killers or undergoing surgery.”

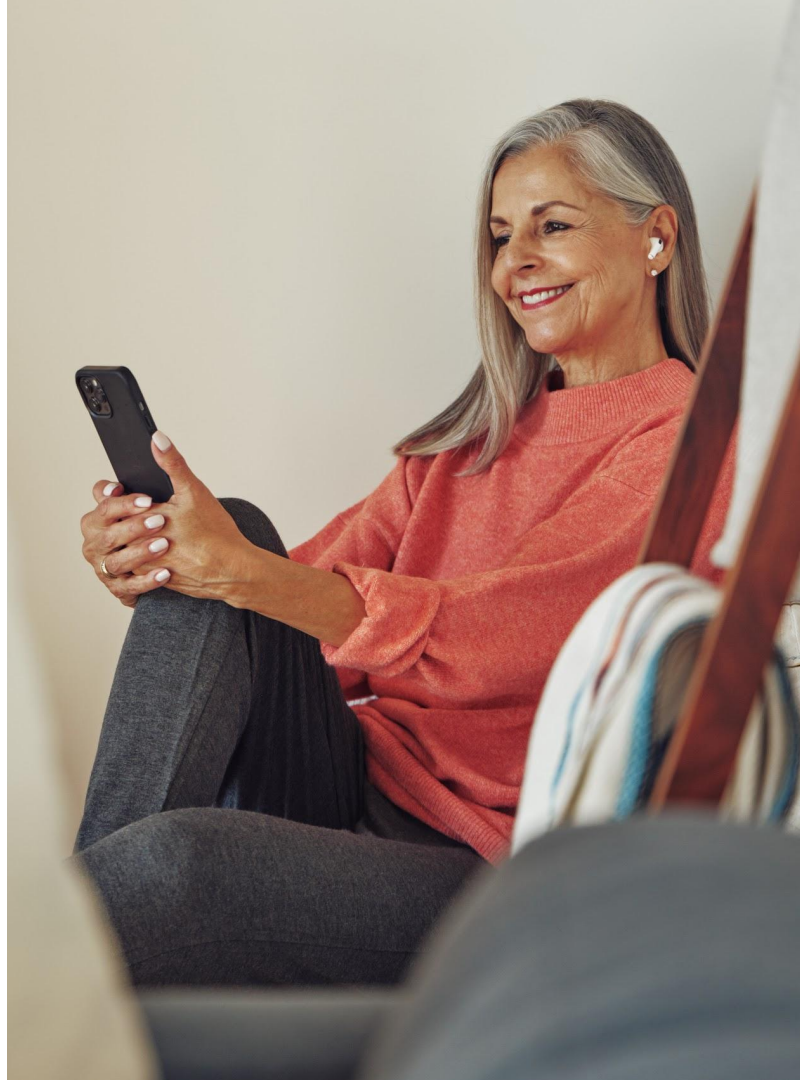

Rory McIlroy, Four-time major champion

Access to Care

Only 2% of patients have access to the best care. Kaia helps the other 98% get access to care.

Anytime, anywhere.

Patient Engagement

Compliance rate approx.
3 times higher than
regular PT/Tele-PT.

Cost of Care

80% cost reduction
compared to typical
standard of care*.

* Not incl. indirect cost savings. Proven in an objective third party study (largest randomized controlled trial in the industry).

kaia health

Health Equity

Same quality.
Every time.
For every patient.

kaia health

Clinical Excellence

A trusted solution
built on **rigorous
clinical evidence.**

The largest randomized clinical trial ever conducted in the digital MSK industry. The first & only solution that has validated the accuracy of our Computer Vision tech. The first & only solution with post-market safety surveillance publication

Motion Analysis

Ensuring members perform each and every exercise **safely and effectively 24/7, at scale.**

Q & A

We look forward to discussing your challenges. How can Kaia help you?

- Access to Care
- Patient Engagement
- Cost of Care
- Health Equity
- Clinical Excellence
- Motion Analysis

Thank you.
