

HIRE EXPERIENCED HEALTHCARE
SALES REPS, ON DEMAND

How does MDliaison work?

Initial discovery call

Set-up a discovery call with one of our team members. Whether it's for a single sales rep or a medical sales team of ten, we want to know what your sales needs are and help you get what you need to start the process.

Match

Post your job on our platform to only vetted and experienced medical sales reps. Within 24-48 hours, we'll introduce you to the right medical sales rep for your project. Interview them and choose the best fit. If we do not have the right talent in our network, we will find them for you.

Hire

As soon as you review and sign off on our recommended contractor(s), they'll be ready to integrate into your team. We will onboard you onto our platform to track rep activity, payments, and invoicing.

If you are not 100% satisfied with the medical sales rep, we will find you another one at no cost.

MDliaison Platform

Search for a curated list of vetted and experienced candidates in the market you need. Track and manage all invoices, payments, and sales reps in one place.

Unlike traditional recruiting models, job posting tools like LinkedIn and Indeed are inefficient and costly per candidate, while staffing agencies take on fees and contracts.

The MDliaison marketplace not only gives you access to a vetted and experienced network of healthcare sales pros for free, but the tools to pay directly, track rep activity, and easily scale with a click of a button. Making it an easy onboarding experience.

Flexible Hours

Choose the amount of hours you want your contractor to work based on your needs.
Scale hours up or down as business needs change.

Easy Direct Deposit

Pay candidates directly with ACH or credit card payments, and we take care of all 1099 paperwork.

Ongoing Sales Support

Track rep activity and approve time through our time tracking system.

We are disrupting the way you hire sales reps
